## ASPECTA™ CONTOURS **CHAMBORD**

ASPECTA™ CONTOURS Chambord design, a single-plank chevron, creates a bold chevron design with an impressive large-scale effect on the floor. The result is truly stunning, especially when the planks are rendered in the lighter, on-trend tones. With its in-register embossing for heightened depth and authenticity, Chambord lends a very sophisticated look with a strong point of view.

# OVERVIEW CHAMBORD

An innovative new process of profiling creates ISOCORE panels reminiscent of an artisan-crafted hardwood floor – but one that can be easily installed and maintained. On the performance front, Chambord is a solid 8 mm LVT featuring a 0.55 mm wear layer coated with ASPECTA's proprietary Duraspect Extreme Surface Protectant™ for unrivaled abrasion resistance and stain repellency. A pre-attached HDPE underlayment provides sound mitigation and enhanced comfort underfoot.

## NORTH AMERICAN STANDARDS - SOUND

Assembly	ASTM E90	ASTM E492	ASTM E2179	Results (Remarks)
6" Concrete Slab	STC 50	IIC 54	$\Delta$ IIC 25	Tested assemblies pass International Building Code (IBC)
6" Concrete Slab + Drop-Ceiling	STC 61	IIC 67	Not Applicable	Requirements of STC $\geq 50$ and IIC $\geq 50$ for multi-story dwellings

### Notes

- 3) ASTM E648 - Critical Radiant Flux (Radiant Panel): Passes Requirements for Class I per International Building Code (IBC) 2018 & NFPA 101 Life Safety Code.
- 4) ASTM E662 - Smoke Density: 450 is the limit established by many state, county, and/or local building and/or fire codes in the United States, but is not set as a limit for (resilient) flooring products nationwide. Thus, Smoke Density requirements for flooring products may vary from jurisdiction to jurisdiction.
- 5) CPSC-CH-C1001-09.3 - Phthalates: CPSIA = Consumer Product Safety Improvement Act.

# ASPECTA™ - THE TRANSPARENCY LEADER

ASPECTA™ and its commitment to transparency are a force of positive disruption in the global LVT-flooring market. There are no communication barriers between you and us. We openly declare product ingredients. We tell you where our products are made. We provide policies and metrics on factory worker diversity, equity, and benefits. We measure the products' impact on the environment over its life cycle and communicate openly about it. We voluntarily provide this information with labels attached to our products, on the ASPECTA™ website and in sustainability databases. We encourage others to participate in the conversation.

We are the transparency leader.

## Indoor Air Certification

ASPECTA™ fulfills the VOC emissions European criteria by world market leader Eurofins. The same organization also awarded ASPECTA™ the best-in-class low emissions certificate: Indoor Air Comfort GOLD.

## HPD (Health Product Declaration)

ASPECTA™ ONE, ASPECTA™ FIVE and ASPECTA™ TEN products carry a voluntary Health Product Declarations (HPD) Open Standard label, which contains product ingredients and associated health information.

## REACH

REACH (EC 1907/2006) aims to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. This is done by the four processes of REACH, namely the registration, evaluation, authorisation and restriction of chemicals. All our products are reach compliant.

# Just.

## JUST Label

ASPECTA™ is the first company in the world to obtain a JUST label, a voluntary transparency tool, for an Asian factory. JUST provides assurance that we are paying attention to what matters most: social factors such as diversity, equity, and safety. Created by the International Living Future Institute (ILFI), JUST is the beginning of a new era in transparency, and ASPECTA™ is leading the way.

# Declare.

## Declare Label

We declare each and every ingredient in the ASPECTA™ ONE, ASPECTA™ FIVE and ASPECTA™ TEN product lines. Declare Labels, created by the International Living Future Institute (ILFI) are clear and informative „nutrition labels“ for building products. As a leader in global transparency, ASPECTA™ is the first to translate these labels into six European languages with a seventh, Mandarin, in the works.
