Dear Customer,

As a challenging and turbulent year draws to a close, we would like to give you a positive outlook for the coming year with our new 2024 price list.

Not least in the highly competitive market environment we face at the moment, we believe it is important to provide you and our customers with a powerful and attractive product package and to react flexibly to constantly changing market demands.

We are therefore delighted to offer a range of products at even more attractive prices. This applies in particular to the Chalet and Chaletino premium floors and our 3-strip floors. We have been able to significantly reduce the recommended retail prices for almost everything in these product groups. We have also managed to achieve reductions in selected standard planks.

The price list is now being published as a PDF for maximum flexibility. The item numbers are again linked directly to our FloorFinder on the website, where you will find all the key technical data and images.

The new 2024 price list applies to all new orders from 1st of January 2024.

Looking back, we once again draw your attention to our new 2023 products, which the various target groups in this difficult market situation have found very attractive:

- ▶ The introduction of planks and 3-strip-flooring with a 2.7 mm top layer are an attractive “middle-of-the-road product” option for price-sensitive buyers who want and can afford a wooden parquet floor.
- ▶ We have introduced Chevron Click Castle for the design-savvy target group. This expands our range of patterned floors and offers an attractive large format herringbone pattern.
- ▶ As well as the wide selection of attractive natural oiled surfaces in many colours, we now also offer our high-quality Chaletino planks with our ultra-matt Live Pure lacquer finish.

We thank you very much for continuing to place your trust in us, especially in these challenging times, and wish you a successful start to the new business year.

Kind regards,

BOEN team

Herringbone Click Castle

209 mm

- ▶ Exclusive plank in proportional dimension. Innovative 5G Click profile for easy installation. Herringbone pattern in floating or glue-down installation.
- ▶ Floor heating systems: suitable.
- ▶ Performance classification (detailed info on page 54): 1-2.
- ▶ Fire protection classification: Dfl-s1.
- ▶ 5G Click connection (only suitable with other Herringbone click products).

▶ Available installation pattern

Dimension: 14 x 209 x 1045 mm / Top layer: ca. 3.5 mm

All products in the Chalet collection are made to order.  Information on our veneered skirtings: p.46.

! Irregularities, splits and blemishes in the wood are part of this product and form the specific character of a handcrafted floor. The planks can have larger knots and splits that are carved out and filled by hand. These are slightly deeper. Due to the hand-finished structure, the thickness of the top layer can sometimes be less than the designated wear layer. These products in Chalet have a maximum length of 3500 mm.

Chaletino: 1 pack = 2 boards = 1.65 m² = 14 kg, 1 pallet = 39 packs = 64.35 m² = 546 kg. We can only deliver complete packages. **Subjacent knots.**

#Availability on request.

Available as 3-strip. Available as plank 138. Available as plank 181. Available as Chalet/ Chaletino.

! Within this product the Animoso grading can naturally contain sapwood and discolouration, which may be reduced by the pigmentation colour within the surface finish.

For Espresso products:

Cavities, cracks and marks in the surface are part of the product and form its specific character.

The products can contain big knots, cracks, and filled defects which have been worked out by hand.

Further information on our veneered skirtings: p.46.

Plank Castle 209 mm: 1 pack = 6 boards = 2.76 m² = 21.5 kg, 1 pallet = 50 packs = 138 m². We reserve the right to deliver 1 board with slotted top layer in each pack. Minimum length of slotted surfaces is 600 mm. We can only deliver complete packages.

*Note: Plank 181 mm has a total thickness of 13.2 mm.

Available as 3-strip. Available as plank 138. Available as plank 181. Available as Chalet/ Chaletino.

! Within this product the Animoso grading can naturally contain sapwood and discolouration, which may be reduced by the pigmentation colour within the surface finish. **For Espresso products:** Cavities, cracks and marks in the surface are part of the product and form its specific character.

The products can contain big knots, cracks, and filled defects which have been worked out by hand. Further information on our veneered skirtings: p.46.

Plank Castle 209 mm: 1 pack = 6 boards = 2.76 m² = 21.5 kg, 1 pallet = 50 packs = 138 m². We reserve the right to deliver 1 board with slotted top layer in each pack. Minimum length of slotted surfaces is 600 mm. We can only deliver complete packages.

Available as 3-strip. Available as plank 181*. Available as Castle plank. Available as Chalet/ Chaletino.

Within this product the Animoso grading can naturally contain sapwood and discolouration, which may be reduced by the pigmentation colour within the surface finish.

For Espresso products: Cavities, cracks and marks in the surface are part of the product and form its specific character.

The products can contain big knots, cracks, and filled defects which have been worked out by hand.

Further information on our veneered skirtings: p.46.

Plank 138 mm: 1 pack = 10 boards = 3.04 m² = 23.5 kg, 1 pallet = 42 packs = 127.68 m². We reserve the right to deliver 2 boards with slotted top layer in each pack. Minimum length of slotted surfaces is 600 mm. We can only deliver complete packages.

***Note:** Plank 181 mm has a total thickness of 13.2 mm.

***BOEN performance classifications:**
Depending on the field of application of our parquet floorings it is subject to different stress and wear. The Brinell hardness of the wood, the width of the boards, the structure, the thickness of the top layer as well as the surface treatment (sealing or oil treatment) are significant for the stability and durability of your flooring.

Performance classification 1 = normal
Hardwood floors in living areas subject to normal usage. Exception: Wet areas and entrance areas.

Performance classification 2 = medium
Hardwood floors in living areas, in administration, meeting and conference areas, kindergartens, consulting rooms etc. subject to average usage.

Performance classification 3 = heavy
Hardwood floors in heavily frequented areas such as shops, restaurants, entrance areas, schools, conference halls, dance halls, etc.

2V bevel:
Bevel on longitudinal side of the board (total of 2 on one board).

4V bevel:
Bevel on all 4 sides of the board.

Surfaces

BOEN places considerable emphasis on protecting the environment during all phases of production. Neither lacquer nor oil emit gases which are harmful to humans or to the environment. BOEN offers its customers a wide range of surface finishes.

 **Live Matt lacquer**

This 6 layer Live Matt sealing with a very low gloss level makes the surface look "as oiled". A natural look combined with the advantages of a scratch-resistant finish.

Protected by  **Protected by Bona**
Live Matt Lacquer is supplied by Bona.

 **Live Matt Plus**

For us, protection and naturalness go hand in hand. And we're putting that to the test once again with the new BOEN Live Matt Plus. This attractive and protective surface treatment can now also be applied to brushed surfaces, giving the floor even greater impact, and intensifying its soft matt quality. BOEN Live Matt Plus also penetrates the smallest pores of the wood, meaning it is now even possible to seal planks with a bevel.

 **Live Natural oil**

Live Natural is a natural surface treatment containing oils such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla). Deep penetration of the oil into the wood is ensured by two-time application on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the Air-Plus Process. The floor has extremely good protection properties against liquids.

 **Live Pure lacquer**

Live Pure is the new innovative product development from BOEN: Oak planks with Live Pure surface treatment have a very natural look with ultra matt finish and very good protective characteristics. Live Pure protects the floor from dust, dirt and liquids thanks to a special treatment applied to the surface which leaves the look of the hardwood floor smooth, clear and naturally light - almost like untreated wood.

BOEN gradings

Visit our virtual product finder to get a better impression of the gradings.

boen.com/products

Wood is a natural product. Some types of wood – beech, for example – have a relatively calm grain. Others, like oak, are rich in structure, with a spectrum of calm to rustic. We offer a wide selection for you to choose from.

CALM

Consistent growth; only small knots; standing or lying year rings.

LIVELY

Natural grading with small to medium knots; a limited spectrum of colours due to sapwood.

RUSTIC

Structure and vivid growth; larger knots; sapwood and heartwood; a rich spectrum of colours.

	CALM	LIVELY	RUSTIC
<i>Adagio, Select</i>	████████████████████		
<i>Andante, Nature</i>		████████████████████	
<i>Finale, Concerto, Contract, Basic</i>		████████████████████	
<i>Animoso, Country, Vivace, Rustic, Traditional</i>			████████████████████
<i>Marcato, Baltic</i>			████████████████████
<i>Vivo, Canyon</i>			████████████████████
<i>Espressivo</i>			████████████████████

Planks, Finesse and Maxi are graded according to EN13489, free class (Boen class).
Longstrip, Prestige and Traffic are graded according to ○, △ and □ after EN13489.

Wood is a product of nature – each tree has its own structure and individual colour combination. An image or a sample will therefore never be able to give you a complete picture of the finished floor. Please also note that the colour may change when exposed to light. As a guideline, darker wood species will get a more golden tone, whereas lighter species will become slightly darker. Cracked knots are filled with putty, so small gaps between the putty and wood may appear.

Make sure you enjoy your hardwood floor for a long time to come

Our floor is made of natural materials, and therefore it is affected by climate and surroundings. We make sure your floor is ready to meet all the challenges that everyday life has to offer, but also the changing climatic conditions we have year round.

BOEN Quality

We produce parquet flooring with top level of quality. With a monitoring system that checks every aspect of production, we are so sure our production meets the highest standards of quality that we give a **25-year warranty**.

Please check our website at boen.com for complete information.

First aid for your floor

For scratches or marks, special repair sets are available.

- More information can be found at boen.com

If the surface of your floor has lots of visible marks on it after a number of years, it can easily be sanded and re-sealed or oiled. Contact your hardwood floor installer.

Always a good choice: 3-layer parquet flooring

1 Top layer

Environmentally friendly use of fine woods only for the top layer. Did you know that six 3-layer hardwood floors can be made from one solid wood floor?

2 Middle layer

Carefully selected strips made of spruce, with standing or half-standing year rings, offer high dimensional stability.

3 Bottom layer

The underlay of spruce veneer is manufactured from one piece and allows stable back pull.

5G Click locking system

Take advantage of the 5G Click - the rapid locking technology.

Best choice for floating installation.

- A quicker and easier way to install single boards without tools.
- Significantly reduces installation time.
- The clear "click" sound lets you know when installation is complete.
- Also suitable for full-surface gluing onto the sub-floor.

1. 5G Click: Every single board can be pressed down individually. Clear "click" sound confirms that the board is installed properly.

Environment

Hardwood flooring is a natural product. As a company that works with wood, BOEN has been entrusted with upholding an important legacy.

BOEN flooring is a product of natural materials. Respect for nature and for the requirement of environmental sustainability is reflected in our processing and management of raw materials. BOEN is constantly seeking methods for processing the raw materials in the most gentle and sustainable manner possible.

The raw materials processed at BOEN come from sustainable forests and other controlled sources. Beyond that, the BOEN factories have implemented a chain-of-custody system in accordance with the FSC™ standards. The Forest Stewardship Council™ is a well-known forest certification scheme.

BOEN's production methods are noted for their quality and excellent use of resources. The timber is quickly transported to the sawmill and cut, so that the drying process

can start as soon as possible, thereby avoiding discoloration. The wood is dried under monitored conditions. This allows us to guarantee the highest degree of stability for our floors.

Multi-layer hardwood flooring provides considerable savings in resources compared to solid hardwood flooring. The use of hardwood is limited to the wear layer. Three-fifths of our parquet is based on spruce and pine woods. Sawn and planed chips are by-products that occur naturally and are used in the factory's heating systems for the drying kilns, hot water supply and fuel pellets.

The German Blue Angel label has been awarded to BOEN, confirming that our manufacturing methods produce minimal amounts of waste gas and consequently contribute to a good interior climate.

Our Certificates

Across the globe, **the Forest Stewardship Council™, FSC™**, promotes an approach to forest management that is environmentally appropriate, socially beneficial and

economically viable. The companies within the BOEN Group have implemented a chain-of-custody system in accordance with the

standards of the FSC and are able to supply FSC-certified products. BOEN supplies products with the FSC Mix label. All of the products are available as FSC certified on request only. Our Group license code is FSC™ C009732, certificate number SGSCH-COC-001535. www.fsc.org, FSC – The mark of responsible forestry.

The eco-INSTITUT label for low-pollutant and low-emission products means safer environment for you

and your family.

For more information, please see: www.eco-institut.de

The Real Wood logo is administered exclusively by authorised manufacturers belonging to the European Federation of the Parquet Industry (FEP). The decision in favour of real wood has ecological benefits.

www.blauer-engel.de/uz176

Products with the **Der blaue Engel (Blue Angel)** seal of quality contain very low levels of emissions in order to ensure a healthy indoor climate.

ISO 14001 Certification The ISO certification 14001 stands for the highest safety regulations and exemplary environmental performance.

FloorScore® is a certification program established by the Resilient Floor Covering Institute (RFCI) for hard surface flooring and flooring adhesives products that meet strict indoor air quality (IAQ) requirements. Regular factory audits are also required. Products bearing the FloorScore® label meet the indoor air quality emissions criteria of LEED, CHPS, the Green Guide for Health Care, and are recognized by a long list of other healthy building programs.

The **FDES** certification process involves evaluating the entire life cycle of a product. Updated information on FDES certification is available at: www.tecsom.com

Designed by onlyyouqj / Freepik

Wood is a natural product. Each tree has its own structure and individual colour combination. The colour of the floor may change when exposed to light.

As a guideline, dark wood will eventually achieve a more golden tone and light wood will become slightly darker.

SURFACE TREATMENT

Finished surface treated with lacquer or oil. For cleaning and maintenance, we recommend using BOEN Cleaning and Maintenance products that can be found in this pricelist.

AREA CALCULATION

When ordering, the following buffer to the required amount should be added: 3-strip and planks- about. 3-4%. Prestige approx. 4-5%.

DISCLAIMER

Flooring products supplied may differ in colour from the images included in this price list as the photos are to be used as a guide and print errors may occur. We reserve the right to change prices and products any time.
